

## **We are excited to announce that Bortech Corporation and Climax Portable Machines Tools have joined forces!**

Climax and Bortech have long been leaders in their respective markets, providing innovative, high-quality welding, bore-cladding and machining solutions for the tough challenges in the power generation, shipbuilding, petrochemical, heavy construction and mining, as well as service and engineering sectors.

The joining of our two companies takes our product and services offering to a whole new level, and we are excited at the benefits our customers will experience as a result of this change.

As Bortech and Climax customers, you will continue to have access to innovative, ground-breaking technologies to address your in-the-field and manufacturing challenges. You will now have a **single source** for applying and removing metal in a wide variety of applications where precision, accuracy, and high-tolerance is the order of the day.

We hope you will join with us as we celebrate this change. And in the midst of the change, there is one thing that will not change – the high quality products and exceptional customer service you expect from us. We will continue to be here to serve you, and we look forward to hearing more about your current challenges so we can work together to determine the right solution for your particular application.

### ***There are many ways to reach us:***

<b>Climax World Headquarters – Newberg, Oregon USA</b>	1.800.333.8311 or 1.503.538.2185	<a href="http://www.cpmt.com">www.cpmt.com</a>
