# Dozer

The DOZER is Bortech's entry level BoreWelder, designed specifically for mild steel bore repairs for heavy equipment. The DOZER:

- Increases welding and machining productivity
- Dramatically reduces repair time
- Reduces equipment down time
- Extends the life of capital equipment

## Specifications:

- 9" stroke length
- 20 lbs.
- 140 amps, continuous duty
- ID range .88" to 24"
- 0.125" axial feed per revolution
- 110VAC or 220VAC input power (depending on model)
- Integrates easily with all leading boring bar mounts
- Optional adjustable base for applications without a boring bar
- Optional Trammel Torch for OD welding
- Optional extensions and torch support kits make it possible to weld more than 36" away from where the DOZER is mounted
- One year warranty

**Upgrade!** Within one year of a purchase of any DOZER, you can upgrade to a Model 306 and receive 100% trade-in credit for your DOZER.

This chart is intended to be a general guide only and depicts typical expected results using a mild steel alloy, welding in position.
