

BORTECH 306-P

Accessory

Compact Face Torch

P/N P1181

Face welding in tight spaces

Equipment is down. Downtime is money lost.

The NEW 306-P Compact Face Torch gets your heavy equipment back on line fast.

You will get into tight spaces and out with precision buildup of faces.

- ◆ Enhances your face welding capabilities – in **much smaller spaces** – than the standard Bortech Face Torch
- ◆ Allows face welding in confined spaces such as between a face and a boring bar bearing mount. Operates in a minimum of 6" height with 6" radial clearances
- ◆ Single set-up of boring bar provides quick alignment of BoreWelder and Compact Face Torch
- ◆ Functions either in-position or out-of-position
- ◆ Easily attaches to any Bortech Model 306-P machine (**A**)
- ◆ Extends reach through small bores (**B**) using standard 306-P torch extensions (**C**)
- ◆ Uses standard 306-P consumables (**D**)
- ◆ Experienced staff provides superior application assistance, training and service
- ◆ Standard Bortech 1-year warranty

& MARKETS

Gets you out of tight spots

Specifications:

- ◆ Weld Process: MIG (GMAW)
- ◆ Face Diameter Range: 2" to 19"
- ◆ Radial Clearance: 6.0" min
- ◆ Axial Clearance: 6.0" min
- ◆ Wire Diameter Size: 0.035" (recommended)
- ◆ Maximum Amperage: 175 amps
- ◆ Lead Screw Pitches: 12 or 16 TPI
- ◆ Bead Pitch: 0.167" (12) or 0.125" (16)
- ◆ Weight: 2.8 lbs

Markets:

Heavy equipment repair associated with:

- ◆ Earth Moving
- ◆ Mining
- ◆ Demolition
- ◆ Forestry

Applications:

Heavy equipment articulation points

Any face degraded by metal-to-metal wear

- ◆ Chippers
- ◆ Excavator Booms
- ◆ Flanges
- ◆ Debarkers
- ◆ Bucket Ears
- ◆ Hitches
